\*\* Model is fully custom built (so any of client ideas can be incorporated into the construction). Price would depend on options chosen for the boat.

All sales are subject to general sales conditions. We reserve the right to modify / improve our products / prices without notice. The above conversion rates are used as a guide only. Price list availability: from January 2009.

## PAYMENT OPTIONS

---

**1. Payment percentage plan:** 35% by contract signing, 20% after hull lamination, 30% after hull is outside of mould and 15% by delivery. A bank guaranteed warranty bond is required.

**2. Advance payment:** If the buyer transfers 100% of payment on contract signing, SeaBoater will provide a 5% discount to the purchaser on the total amount of all advance payments.

**3. SeaBoater Leasing:** For security reasons, it is required that buyer pay in full the amount of the boat not being leased (depending on the leasing contract) at the time of signing the contract in order to begin yacht building.

Example: If the contract states 50% leasing, then the buyer will pay 50% of the total up front and SeaBoater will pay the other 50% in form of a leasing contract.
